Items of Interest and Person al Mention Caught Over the Wireless on the Streets of Anderson

Heard Yesterday.

People coming down Main street from the square yesterday stopped and listened with interest to something approaching the anvit chorts. A crowd of negroes, employed on the work of digging trenches for the telephone company wires which are now going under ground, had succeeded in getting all their hammers to strike in unison and it made a rather pleasant round as the iron struck the stones. However, very little work had been accomplished until a cloud came up and then, with the prospects of rain giving them a rest, the negroe, redoubled the irry of their blows and for about 15 minutes oney really worked a little.

The meeting is to be held in the court house tomorrow morning at 10 o'clock and the attendance will probably be large.

His Experience. Sherman said that "war is hell" and Sherman said that "war is hell" and his Anderson namesake in the shape of a coal black negro has likewise decided that having to appear before Magistrate Broadwell is just about the same thing. Sherman Brown (although he is black) was arraigned before Magistrate Broadwell on a charge of breach of the peace, and after hearing the evidence, the Magistrate decided that the defendant was guilty as charged and sentenced the prisoner to pay a fine of \$25, or to serve 30 days. After much seuffling around the defendant succeeded in locating the coin and paid his fine.

This was the sole topic of discussion and many and curious were the arguments presented by the supporters of different candidates. Of course, the principal subject was the senatorial race and as is usually the case both sides contended that the other did not have a chance. Anderson people are fully a chance. Anderson people are fully as interested in the coming senatorial election as they were in the gubernatorial election last year.
